

A Woman-Owned Business

After 36 years as a leading contract interiors service provider and Herman Miller's oldest authorized distributor in New York City, Tobron Office Furniture Corporation was purchased by Amy Bearss in January 2008 from Anthony Cuccolo to establish the company as a Women Owned Business (WBE).

With over ten years experience at Tobron Ms. Bearss is dedicated to remain true to the Company mission of being a leading provider of high-valued brand name furniture solutions and creating places where business can truly flourish!

We look forward to continuing to assist our Corporate and Government customers with the added benefit of Tobron's new WBE status.
